

## WHY SHOULD YOUTH PLAY FUTSAL BETWEEN SOCCER SEASONS? \*

Get the edge on the competition and have fun too. The short concise sessions of futsal academies once per week teach the futsal rules and include playing futsal for about 45 minutes each session in a safe, relaxed, non-pressured environment. *Everyone knows playing futsal gives players many more touches on the ball than the typical outdoor game.* Moreover, futsal academies include coaching of futsal-specific skills that are immediately related to situations in soccer. **How can you not take advantage of this?**

For just \$95/youth player get futsal-specific coaching that is very useful to soccer, get to play the fast-paced, high-scoring, exciting game of futsal, get futsal academy t-shirts and play a mini-tournament at the end, all while respecting holidays. Those who miss out on this will be jealous. You won't miss this, will you?

\* And sometimes DURING soccer seasons for the most serious athlete.
